

Dura-Print® Green

Looking for a high strength envelope product that prints like a traditional paper envelope? **Dura-Print® Green** is the answer!

It's **DURA-ble**, **PRINTable** and **OXO-biodegradable**.

- **Dura-Print® Green** marries paper and oxo-biodegradable poly into one substrate that looks, feels and handles like paper but has the strength of plastic.
- **Dura-Print® Green** is nearly Indestructible providing the utmost security.
- **Dura-Print® Green** has substantial body (*stiffness*).
- **Dura-Print® Green** is moisture resitant.
- **Dura-Print® Green** is lightweight. You'll appreciate the postal savings compared to no-bend mailers and heavy substrate products.
- **Dura-Print® Green** has an excellent printable surface taking ink beautifully—no special inks, setups or settings.
- **Dura-Print® Green** is considerably more economical than high strength products.
- Barcodes can be Sprayed on **Dura-Print,® Green** easily saving time and money when presorting mail.
- An oxo-biodegradable poly center is manufactured with no VOC's and trees that are grown as part of the Sustainable Forest Incentive.
