

Less waste. More profit.

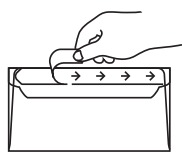

with Reusable 2-Way ecoenvelopes™

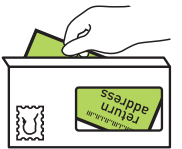

Less is truly more with ecoenvelopes. That's because this 30% post-consumer recycled envelope is an outer envelope and a return envelope all in one. It's a great way to showcase your contents and your commitment to preserving the environment:

- Reduces mailing materials inventory by 50%.
- Saves up to \$200 per 1,000 pieces if your mailing tips weight to the next ounce.
- Eliminates the need for producing a separate envelope for both CRE and BRE.
- Saves up to \$3.00 per 1,000 on inserting costs by eliminating a reply envelope.
- Can be manufactured using up to 100% post-consumer waste content, and is manufactured using eco-friendly inks and compostable window film.
- USPS approved and made exclusively with FSC or SFI certified papers as specified. FSC certified, 30% post-consumer is used in the manufacturing of the stock products.

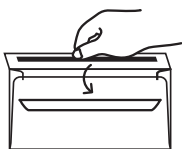

Simple to Open. Simple to Return.

1 To open, lift and pull perforated strip tab.

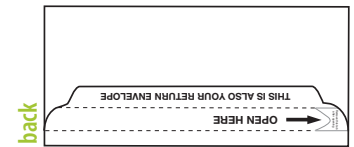

2 To respond, insert reply so return address shows in window.

3 To seal, moisten and close gum flap.
