

Dura-Print®

Looking for a high-strength envelope that acts like traditional paper envelopes?

Western Dura-Print® is the Answer!

It's both **DURA-ble** and **PRINT-able**. It's almost indestructible! Dura-Print® marries paper and poly into one substrate that looks, feels, and handles like paper but has the **strength of plastic**. These envelopes are ideal for brochures, catalogs, reports, magazines and packaging.

Size	Sub.	Product No. • Color • Description	Seal	Quantity Box / Ctn	Recycled/ Imaging Finish/ Certification

Secure.

Dura-print is nearly indestructible, providing the utmost security.

Economical.

Dura-print is considerably more economical than other high-strength products.

Moisture-Resistant.

Dura-print is moisture resistant.

Substantial.

Dura-print has a substantial body (stiffness).

Lightweight.

Dura-print is lightweight. You'll appreciate the postal savings compared to no-bend mailers and heavy substrate packaging products.

Printable.

Dura-print has an excellent printable surface taking ink beautifully. No special ink, setups or settings.

Barcode-Friendly.

Barcodes can be sprayed on Dura-print, saving you money when pre-sorting.
