

Self-Sealing Envelopes

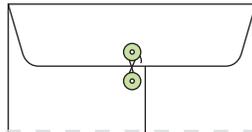

No Licks, Still Sticks!

We offer several types of easy to use, self-sealing envelope options that prevent the passing of germs. No moisture required!

Multi-Tak™

Seal Tape closure for reusable sealing; can be printed after conversion.

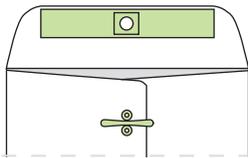

String & Button

Tie-down closure ready for repeat opening or secured sealing.

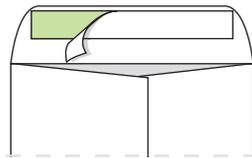

Flip-Stik®

Latex adhesive applied on two flap surfaces and folded to keep them separated until sealing.

Clasp

Reinforced, double-pronged metal clasp with remoistening flap for added security.

Kwik-Tak®

Release tape liner applied over a resin adhesive. Remove liner and press flap down to seal.

Pres-Stik®

Self-adhering latex adhesive applied to two surfaces that seals on contact when joined.
